A Testament to Design Excellence: Krushna Kunja Reaches BAI Awards Finals

Pune, Maharashtra, 2024: Residential project Krushna Kunja, designed by Shilpi Architects and Planners, advanced to the final stage of evaluation in the prestigious awards program organized by the Builders Association of India (BAI), Pune Centre. The project earned recognition during the preliminary round for its architectural quality, planning approach, and execution standards.

As part of the final assessment process, the jury conducted a detailed site visit to evaluate the project first-hand. During the visit, Mr. Pravin Badhekar and Ar. Paras Netragaonkar presented the complete journey of Krushna Kunja, from its initial vision and design development to construction and successful completion.

The presentation highlighted the project's architectural character, site-responsive planning strategies, attention to detail, and quality of execution. The design team also shared insights into the collaborative process and challenges that shaped the project while demonstrating how the development responds to the aspirations of its residents.

The jury interaction provided an opportunity to showcase the integrated design and construction approach adopted throughout the project. Advancing to the final stage of the BAI Awards marks a significant achievement for Krushna Kunja and reflects Shilpi Architects and Planners' continued commitment to innovation, design excellence, and quality within the built environment.

The recognition reinforces the firm's dedication to creating thoughtful architectural projects that combine functionality, aesthetics, and lasting value for communities and users alike.
