Mumbai, Maharashtra, 2022: Excellence in landscape architecture took center stage at the prestigious IIA National Awards for Excellence 2022, where a project by Shilpi Architects and Planners was featured among the shortlisted entries in the Landscape Architecture (Large Site More Than 1 Acre) category.

The national-level awards brought together leading architects, designers, and industry professionals from across the country to celebrate innovation and excellence within the built environment. Evaluated by a distinguished jury comprising renowned architects and design experts, the shortlisted projects represented some of the most noteworthy contributions to contemporary architecture and landscape design.

As part of the final stage of evaluation, the firm's project was presented before the jury, highlighting its design vision, planning strategies, environmental sensitivity, and user-centric approach. The project demonstrated how thoughtful landscape design can enhance public experiences while responding to ecological and contextual considerations.

The event provided an important platform for professional exchange and recognition, offering an opportunity to engage with some of the country's most respected practitioners and thought leaders. The selection of the project among the national contenders reflected its design quality and contribution to the evolving discourse on landscape architecture in India.

The awards ceremony celebrated projects that push the boundaries of innovation, sustainability, and design excellence, reinforcing the growing importance of landscape architecture in creating resilient and meaningful environments for communities.
