

Community Unites Around Vision for Shri Nagareshwar Devalaya during Kojagiri Pournima Celebrations

October 2025: The vision for the proposed Shri Nagareshwar Devalaya was presented to community members during a special gathering held as part of the Kojagiri Pournima celebrations, marking an important step in the development of a project that aims to become a significant center of faith, culture, and community life.

The event brought together residents, devotees, and stakeholders, providing an opportunity for the design team to share the architectural concept and planning approach for the temple. The presentation outlined the project's vision of preserving the essence of traditional temple architecture while responding to the contemporary needs of the community.

The presentation highlighted the project's architectural character, site-responsive planning strategies, attention to detail, and quality of execution. The design team also shared insights into the collaborative process and challenges that shaped the project while demonstrating how the development responds to the aspirations of its residents.

The jury interaction provided an opportunity to showcase the integrated design and construction approach adopted throughout the project. Advancing to the final stage of the BAI Awards marks a significant achievement for Krushna Kunja and reflects Shilpi Architects and Planners' continued commitment to innovation, design excellence, and quality within the built environment.

The recognition reinforces the firm's dedication to creating thoughtful architectural projects that combine functionality, aesthetics, and lasting value for communities and users alike.
